03 / EXPERIENCE & CAREER

Professional journey, responsibilities & milestones

This document provides ready-to-use website copy and a visual layout direction for the Experience & Career page of engrumairiftikhar.com. The design uses a premium navy-and-gold palette, clear career cards, a timeline, and concise role descriptions.

LEADERSHIP

Technology Leadership

CTO & Co-Founder at i3 Group of Companies.

OPERATIONS

Program Operations

COO at Youth Empowerment Training Program (YETP).

PRACTICE

Engineering & Training

Web development, digital initiatives, marketing and IT training.

CAREER POSITIONING

I combine an engineering foundation with technology leadership and operational experience. My work spans software development, digital platforms, youth-focused training initiatives, digital marketing, and the practical implementation of technology-driven solutions.

CONTENT ACCURACY NOTE

The content below uses the roles and experience shared so far. Exact dates, employment arrangements, project names, board appointments, and measurable outcomes have not been assumed. Add or correct those details before publication.

Section 1 — Career Timeline

Display roles in reverse chronological order once dates are confirmed. The following draft uses role-based chronology where exact start dates were not provided.

CURRENT / DATES TO CONFIRM

CTO & Co-Founder — i3 Group of Companies

Technology leadership, technical planning, software solutions, and innovation across business initiatives.

CURRENT / DATES TO CONFIRM

Chief Operating Officer — YETP

Program operations, digital learning, technology-enabled training, and coordination across delivery teams.

DATES TO CONFIRM

Technology & Digital Program Contributions — Hunarmand Punjab

Contributions to digital skills initiatives, online learning, and technology-enabled program delivery.

DATES TO CONFIRM

Technology & Program Contributions — Cyber Secure Pakistan

Contributions to a cybersecurity-focused initiative, digital awareness, and skills development.

PROJECT DATES TO CONFIRM

Software Development & Digital Marketing

Web development work involving React.js and Node.js, alongside digital marketing and corporate IT training.

Developer note: Replace “Current / dates to confirm” with verified month/year dates. If two roles overlapped, show the actual periods rather than forcing a strictly sequential timeline.

Section 2 — Leadership Responsibilities

Use these responsibility blocks beneath each role. Keep the public website focused on responsibilities you can substantiate and are comfortable sharing.

CTO & Co-Founder — i3 Group of Companies

- Contribute to the organization’s technology direction and digital strategy.
- Support technical planning, solution architecture discussions, and implementation priorities.
- Guide or coordinate software development activities and technology-related project delivery.
- Evaluate suitable tools, platforms, and emerging technologies against business requirements.
- Connect technical execution with operational needs and organizational goals.
- Contribute to product ideas, digital infrastructure, and continuous improvement.

Chief Operating Officer — Youth Empowerment Training Program (YETP)

- Support program planning, day-to-day operations, and implementation activities.
- Coordinate across technology, training, administration, and student-support functions.
- Contribute to digital systems and workflows supporting student onboarding and learning delivery.
- Help align operational processes with program objectives and participant needs.
- Support issue resolution, communication, and ongoing improvements in delivery.

Technology & Digital Initiatives — Hunarmand Punjab

- Contribute to technology-enabled education and digital skills initiatives.
- Support online learning, digital platform, and program-delivery requirements.
- Coordinate technology needs with operational and training activities.
- Help communicate digital opportunities and learning pathways to intended audiences.

Technology & Program Contributions — Cyber Secure Pakistan

- Contribute to a cybersecurity-focused initiative and related digital activities.
- Support technology requirements associated with online engagement and learning.
- Participate in work connected to cybersecurity awareness and digital skills development.
- Help connect program goals with practical technology and communication needs.

Software Development, Digital Marketing & Training

- Develop or contribute to web applications using React.js and Node.js.
- Work with frontend interfaces, backend functionality, APIs, and responsive web experiences where applicable.
- Support digital marketing planning and execution across online platforms.
- Deliver or support IT training and corporate-sector knowledge-sharing activities.
- Translate technical requirements into practical implementation tasks and user-facing solutions.

Section 3 — Selected Career Milestones

Feature milestones that demonstrate growth, technical capability, recognition, and contribution. Dates and claims should be confirmed before publication.

RECOGNITION

2020 — CTO Recognition

Received recognition as a CTO from former Governor of Punjab Chaudhary Muhammad Sarwar. Add the exact certificate title and event details.

RESEARCH

2021 — Research Publication

Research titled “IoT Based Monitoring and Control in Smart Farming,” associated with MAJICC 2021. Add the official IEEE record/DOI.

ENGINEERING

Technology & Digital Platforms

Contributed to web development and digital initiatives, including work with React.js and Node.js. Add selected project names and outcomes.

PROGRAMS

Youth Skills & Cybersecurity Initiatives

Contributed to initiatives associated with YETP, Hunarmand Punjab, and Cyber Secure Pakistan. Add verified responsibilities and public links.

OPTIONAL MILESTONES TO ADD

- Launches of websites, platforms, or software products you led or helped deliver.
- Major releases, integrations, or operational improvements with measurable outcomes.
- Corporate training programs, workshops, or speaking engagements.
- Team-building, partnerships, or program milestones that can be publicly verified.
- Awards, conference participation, or research achievements supported by official evidence.

Suggested presentation: a horizontal or vertical timeline for major milestones, with a short impact statement and a link to evidence where available.

Section 4 — Board / Advisory Roles

Only include formal board memberships, advisory appointments, or non-executive roles if they are current or historically accurate and approved for public use.

No board or formal advisory appointment details have been provided for this draft. If you hold a verified appointment, use the following format:

ROLE	ORGANIZATION	PERIOD / STATUS	PUBLIC DESCRIPTION
Board Member / Advisor	[Organization name]	[Month Year – Present / Ended]	A brief, approved description of the remit and contribution.

INFORMATION TO COLLECT

Before finalizing the Experience & Career page, gather the following details:

INFORMATION	DETAILS TO CONFIRM
Career history	Exact organization names, job titles, start/end month and year, and location if relevant.
Role scope	Main responsibilities, team or business scope, and contributions approved for public use.
Project evidence	Project names, official URLs, screenshots, technology stack, and your specific role.
Milestones	Launch dates, verified outcomes, awards, publications, training events, and partnerships.
Board / advisory roles	Formal role title, organization, dates, current status, and approved public description.
Sensitive details	Any projects, clients, internal processes, or responsibilities that must not be disclosed.

REQUIRED ASSETS

- Professional headshot, suitable for the career page and executive profile.
- Approved organization logos, where permission is available.
- Project screenshots, official public links, and case-study material.
- Award photographs or certificates, with exact award titles and dates.
- Research paper URL/DOI and verified conference details.
- Training/event photographs and approved descriptions of public engagements.

Ready-to-Use Closing Copy

Use this closing section at the bottom of the Experience & Career page to connect professional history with future opportunities.

Building Technology. Leading Teams. Creating Impact.

My professional journey brings together engineering, technology leadership, digital initiatives, and knowledge sharing. I am interested in building practical solutions, supporting capable teams, and contributing to work that creates meaningful value for organizations and people.

VISUAL DESIGN RECOMMENDATIONS

LAYOUT

Career Timeline

Use a vertical timeline with role title, organization, verified dates, and 1–2 lines of contribution.

LAYOUT

Responsibility Cards

Use separate cards for technology, operations, digital initiatives, and training.

VISUALS

Milestone Gallery

Use real event photos, certificates, project screenshots, and publication links.

FINAL PUBLISHING CHECKLIST

- Confirm all role titles and employment dates.
- Add the actual names and URLs of completed software projects.
- Verify award wording and research publication metadata.
- Only add metrics when a reliable source supports them.
- Use approved images and logos; avoid stock photos that imply events or roles that did not occur.
- If no formal board/advisory role exists, omit that section or leave it unpublished.
