CEO PORTFOLIO WEBSITE / CONTENT & ASSET PLANNING

Global Content & Asset Checklist

A practical, visual checklist for collecting, verifying, approving, and publishing the content and assets needed for **engrumairiftikhar.com**. Tick each item as it is confirmed. Use approved, high-quality, current materials only.

Assets & details	Facts & permissions	Final wording	Test & maintain

01 Identity & Brand

- ☐ Confirm exact public name spelling: Engr. Umair Iftikhar.
- ☐ Confirm preferred title and current roles: CTO & Co-Founder, i3 Group of Companies; COO, Youth Empowerment Training Program (YETP).
- ☐ Approve a concise professional positioning statement and short/long biography.
- ☐ Provide approved logo files for personal brand and any organizations that may be displayed.
- ☐ Confirm brand palette: navy blue and gold accents; approve fonts, button style, and image treatment.
- ☐ Confirm organization naming, capitalization, and which affiliations may be shown publicly.
- ☐ Confirm primary website domain and redirects: engrumairiftikhar.com.

02 Photography & Visual Assets

- ☐ Provide a high-resolution professional portrait (vertical and horizontal crops if available).
- ☐ Provide authentic photos from conferences, training sessions, events, and professional engagements.
- ☐ Provide project screenshots, product visuals, dashboards, or website previews that may be shown publicly.
- ☐ Provide award photographs/certificates and event captions, dates, and organizer names.
- ☐ Provide approved company/initiative logos and any official event or partner logos.
- ☐ Confirm image ownership, consent, usage rights, and whether any people need permission before publication.
- ☐ Replace low-resolution, outdated, generic, misleading, or unlicensed visuals.

03 Evidence, Claims & Verification

Every public claim should be accurate, current, and supported. Where evidence is unavailable, use neutral wording or leave the claim unpublished.

- ☐ Verify education details, degree title, institution name, and graduation information.
- ☐ Verify employment/leadership titles, organization names, and relevant dates.
- ☐ Confirm the exact title, date, issuer, and wording of each award or recognition.
- ☐ For the research paper, confirm final title, conference details, publication record, and DOI/official source link before displaying publication badges.
- ☐ Verify project descriptions, personal contribution, technologies used, outcomes, and whether the project is live or archived.
- ☐ Use metrics (users, learners, clients, revenue, reach, growth) only when documented and approved for public use.
- ☐ Obtain approval for quotations, testimonials, endorsements, third-party logos, and partner references.
- ☐ Check confidentiality obligations and remove client, student, or internal information that is not approved for publication.

04 Projects, Ventures & Case Studies

- ☐ Select the strongest projects across software, AI, education technology, digital marketing, and web platforms.
- ☐ For each case study, collect: project name, objective, audience, role, technologies, solution, and verified outcome.
- ☐ For real estate and rent-a-car projects, confirm whether names, screenshots, URLs, and client references can be public.
- ☐ Add working project/demo links only after checking that they load and are safe to share.
- ☐ Clearly label personal work, team projects, client work, prototypes, and archived projects.
- ☐ Collect approved thumbnails/screenshots and short captions for project cards.
