06 / INSIGHTS, SPEAKING & MEDIA

Sharing Practical Perspectives on Technology

My professional interests sit at the intersection of software engineering, technology leadership, artificial intelligence, digital transformation, cybersecurity awareness, and IT education. Through articles, talks, workshops, and professional conversations, I aim to make complex technology topics easier to understand and connect them with real-world needs.

SECTION 1 — FEATURED INSIGHTS

Ideas and perspectives

This section will feature selected articles, professional reflections, technical explainers, and lessons learned from technology and digital initiatives. Each post should offer a clear takeaway for founders, technology teams, students, and organizations exploring digital solutions.

Suggested article themes

- **From Code to Business Value:** How software projects can be planned around real user and business needs.
- **AI in Practical Workflows:** Where AI-enabled tools may improve productivity—and where human review remains essential.
- **Building Digital Platforms for Learning:** Key considerations for accessible, reliable education technology.
- **Technology Leadership for Growing Teams:** Aligning technical decisions, delivery priorities, and organizational goals.
- **Cybersecurity as a Shared Responsibility:** Everyday practices that help individuals and organizations build safer digital habits.

Article card format: [Article Title] • [Publication Date] • [2–3 sentence summary] • [Read Article link]

SECTION 2 — SPEAKING & EVENTS

Speaking topics

I welcome opportunities to contribute to relevant technology, education, entrepreneurship, and professional-development events. Sessions can be tailored to the audience, event objectives, and available format.

TOPIC 01

AI & Digital Transformation

Practical AI use cases, responsible adoption, and technology-enabled workflows.

TOPIC 02

Software & Product Thinking

Turning requirements into useful, maintainable digital products.

TOPIC 03

IT Skills & Careers

Digital skills, learning pathways, and preparing for technology-driven work.

TOPIC 04

Cybersecurity Awareness

Digital safety principles and building responsible security habits.

TOPIC 05

Technology Leadership

Team coordination, technical priorities, and connecting strategy with delivery.

TOPIC 06

Education Technology

Digital platforms and technology-supported training experiences.

Speaking and event records

- Add only confirmed conferences, panels, workshops, training sessions, and speaking engagements.
- For each event, include event title, organizer, date, topic, your role, and an official link where available.
- Use real event photographs or video clips with permission; do not imply attendance or a keynote role unless accurate.

Interviews, Media & Professional Profile

SECTION 3 — INTERVIEWS & PODCASTS

I am open to thoughtful conversations about technology leadership, software development, AI-enabled solutions, digital skills, cybersecurity awareness, and education technology. This section can host interviews, podcast appearances, recorded discussions, and expert commentary once published.

Interview / podcast card format

EPISODE / INTERVIEW TITLE	TOPIC & SUMMARY	LINK
[Add title here]	[Add topic, publication date, and a short summary]	[Watch / Listen]

SECTION 4 — PRESS / MEDIA MENTIONS

This section will highlight relevant third-party coverage, published interviews, event announcements, and professional mentions. Each item should identify the publication or media outlet, headline, publication date, and original link. Sponsored content should be clearly distinguished from independent editorial coverage.

PUBLICATION / OUTLET	HEADLINE / CONTEXT	DATE	LINK
[Media outlet]	[Headline or short description]	[Date]	[Read more]

SECTION 5 — SPEAKING INQUIRY

Invite me to contribute

For conferences, corporate sessions, university events, technology forums, podcasts, and professional workshops, please share the event's purpose, intended audience, proposed topic, date, format, and expected duration. I can then review the request and discuss suitability and availability.

CTA: Invite Me to Speak | Request a Workshop | Media Inquiry

INFORMATION & ASSETS TO ADD

- Article titles, publication dates, links, and approved summaries.
- Confirmed speaking/event list with topic, date, organizer, and official link.
- Interview or podcast URLs, episode titles, publication dates, and summaries.
- Media outlet name, headline, date, and original coverage link.
- Approved speaker bio, professional headshot, event photos, and short video clips.
- Any limits on speaking availability, subject matter, or media requests.

Visual assets: high-resolution portrait, genuine event photographs, publication thumbnails, interview stills, and media logos only where licensed or permitted.

PROFESSIONAL CONTACT

Let’s Start a Conversation.

CONTACT & PROFESSIONAL INQUIRIES
Business • Technology • Speaking • Collaboration

07 / CONTACT & PROFESSIONAL INQUIRIES

Connect for Meaningful Work

I welcome relevant professional conversations with organizations, founders, technology teams, educational institutions, event organizers, and potential collaborators. Whether you would like to discuss a technology project, explore a partnership, invite me to speak, or connect around digital skills and innovation, please share a little context so I can respond appropriately.

SECTION 1 — CONTACT INTRODUCTION

The right conversation can be the starting point for a useful collaboration. Please use the inquiry form to describe what you have in mind, your organization or event, and the best way to follow up.

SECTION 2 — INQUIRY CATEGORIES

01
Business & Strategic Partnerships
Technology collaborations, venture discussions, and professional partnerships.

02
Software & Digital Projects
Web development, AI-oriented solutions, digital platforms, and technical consultation.

03
Speaking & Training
Conference invitations, corporate training, workshops, panels, and educational events.

04
Media & Interviews
Podcast invitations, interviews, press questions, and expert commentary.

SECTION 3 — CONTACT FORM

Recommended form fields

FIELD	PURPOSE
Full Name	Identify the person making the inquiry.
Work Email	Provide a professional reply channel.
Organization / Company	Understand the context of the request.
Inquiry Type	Partnership / Project / Speaking / Media / Other.
Subject & Message	Explain the opportunity, goals, timing, and relevant details.

SECTION 4 — SOCIAL & PROFESSIONAL LINKS

Add your official profile links here

PLATFORM	PLACEHOLDER FOR LINK
LinkedIn	[Add LinkedIn profile URL]
Facebook	[Add Facebook profile/page URL]
Instagram	[Add Instagram profile URL]
YouTube	[Add YouTube channel URL]
X / Other professional platform	[Add profile URL if relevant]

CLOSING COPY

Have a project, idea, or opportunity in mind? Share the details, and let’s explore whether there is a practical way to work together.
